

Application Process : For Institutional Investors Using O/EMS

- To trade on CONNEQTOR, please first obtain an ID and register brokers through "1. User Registration."
- After completion, by proceeding with '2. Application for Production Use,' you will be able to use it for actual transactions.

1. User Registration

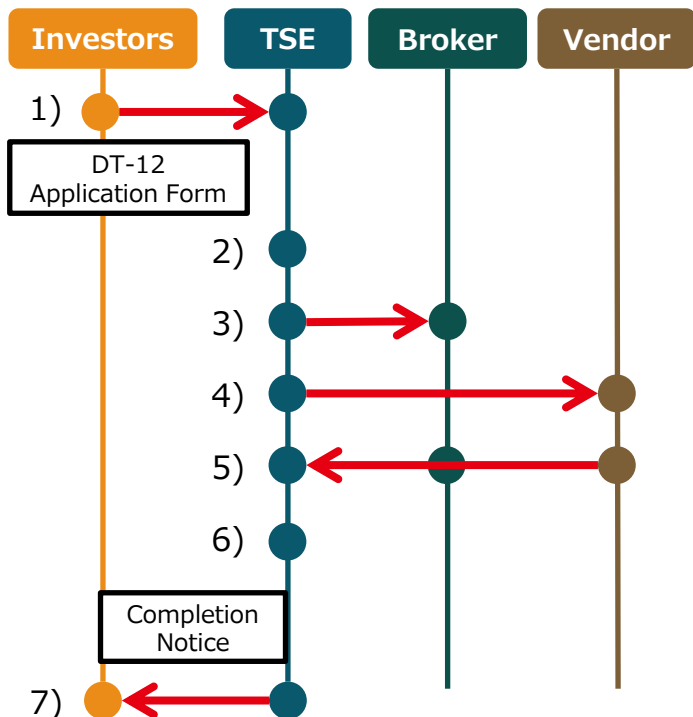

- Please submit the “DT-01 User Registration Form” to TSE. You will need to specify the O/EMS, the Broker, and the user.
- For Brokers and O/EMS vendors, verification will be conducted by TSE, and after confirmation, the appropriate values will be registered in CQ.

1) Submission of User Registration Application Form	[Investors→TSE] Investors submit the “ DT-01 User Registration Form ” to TSE. At that time, you will fill in the information for the user, O/EMS, and Broker you will use.
2) Registration of Customer Information	[TSE] TSE will register the investor's information (organization and user information) in CONNEQTOR
3) Request for confirmation to the broker	[TSE→Broker] TSE will share the user information with the Broker and request the setup of account linking and other configurations in the DEMO environment.
4) Request for confirmation to the O/EMS vendor	[TSE→Vendor] TSE will share the user information with the O/EMS vendor and configure the settings in the vendor's system.
5) Notification of Confirmation and Completion of Preparations	[Broker/Vendor→TSE] The Broker and O/EMS vendor will notify TSE once confirmation and preparations are completed.
6) Registration of Broker Information	[TSE] TSE registers the broker and account information in the CONNEQTOR's DEMO environment.
7) Notification of Registration Completion	[TSE→Investor] TSE sends a “ Registration Completion Notice ” to the investor.

2. Production Trading Application

- Please submit the “DT-12 Production Trading Registration Form” to TSE.
- After confirming with the vendor and Broker and completing the registration in CQ, actual trading can be conducted.

1) Submission of Production Use Application Form	[Investors→TSE] Investors submit the " DT-12 Production Trading Registration Form " to TSE.
2) Registration of Customer Information	[TSE] TSE will register the investor's information (organization and user information) in CONNEQTOR
3) Request for confirmation to the broker	[TSE→Broker] TSE will share the user information with the Broker and request the setup of account linking and other configurations in the DEMO environment.
4) Request for confirmation to the O/EMS vendor	[TSE→Vendor] TSE will share the user information with the O/EMS vendor and configure the settings in the vendor's system.
5) Notification of Confirmation and Completion of Preparations	[Broker/Vendor→TSE] The Broker and O/EMS vendor will notify TSE once confirmation and preparations are complete.
6) Registration of Broker Information	[TSE] TSE registers the broker and account information in the CONNEQTOR's PRD environment.
7) Notification of Registration Completion	[TSE→Investor] TSE sends a " Registration Completion Notice " to the investor.
